The Hubs is a unique building made up of 4 drumlike spaces, known as Pods. Each of the Pods will be filled with interactive, hands-on and information stalls. Your chance to have a go, or just chat to the people who can point you in the direction, or just open your mind to new ideas.

POD TOUR

Once you arrive you'll receive your information pack and set off on your self guided route through the Pods:

- Get up close to individual creative workers and find out what makes them tick and what life is really like at the sharp end of the creative industries
- Put yourself behind a camera, in front of a microphone, on a keyboard, or next to a DJ - an opportunity to get to grips with the kit
- Be creative yourself, with lots of hands-on activities
- Work with an interior designer to make a room
- Talk to the people who know about the range of jobs out there, what qualifications or skills you might need – and how you go about getting them
